

## ACCEPTABLE USE POLICY

This Acceptable Use Policy ("AUP") sets for the specific actions that are prohibited by Telesti Corporation and applies to all users of Telesti Corporation telecommunications and/or network access services ("Services"). Use of the Services constitutes acceptance of and agreement to abide by all of the policies set forth in this AUP, which are in addition to and supplement the Wireless Service Agreement in effect from time to time and should be read in conjunction with the Wireless Service Agreement. Violations of this AUP may result in immediate suspension and/or termination of the Services. Telesti Corporation has no ability to monitor the integrity, accuracy or quality of the information transmitted via the Services and Telesti Corporation assumes no liability to its Subscribers or to any third parties for the content of such information.

As a Telesti Subscriber, you hereby agree that you will not use the Services:

For illegal purposes or to further illegal activities. As clarification and not limitation of the foregoing, you agree that you will not upload, download, post, distribute or facilitate the distributing of a material in any chat room, message board, newsgroup or similar interactive medium that you access through the Services that:

- Constitutes any unauthorized reproduction of copyrighted or other protected materials; Violates U.S export control laws; or is threatening, abusive, harassing, defamatory, libelous, deceptive, fraudulent, invasive on another's privacy.
- To probe hosts or networks without the explicit authorization of the administration of those systems.
- To breach the security of a host, network component, or authentication system without the explicit permission of the administration of those systems.
- To monitor data on any network or system without the explicit authorization of the administration of that system or network.
- To interfere with the service of any user, host or network, including deliberate attempts to overload a server, network connected device, or network component.
- To originate malformed data or network traffic that results in damage to, or disruption of, a service or network connected device.
- To forge data with the intent to misrepresent the origination user or source.
- To send unsolicited, mass electronic mail messages to one or more recipients or systems (known as 'Spamming'). Any electronic messages, which are sent in an unsolicited manner to 10 or more recipients, or any series of unsolicited electronic messages to a single user, qualifies as Spamming.
- The solicitation and or viewing of child pornography.
- To forge electronic mail headers (including any portion of the IP packet header and/or electronic mail address), or any other method used to forge, disguise, or conceal the user's identity when using the Services ('Spoofing').
- To use another Internet user's electronic mail server to relay electronic mail without the explicit permission from that third party ('E-mail Relay').
- To conceal, forge or otherwise falsify your identity in connection to any Telesti Services, or present a false identity to Telesti when signing up for any Telesti Services.
- To send mass volumes of data, or any other abusive behavior that is intended to disrupt or disable the recipients system ('Denial of Service' (DOS) or 'SYS Flood' attacks).
